

Grenoble, Wednesday 14th November, 2017 (version française au dos)

Purpose: Looking for a training period in a company

Dear Sir,

The Professional Bachelor's Degree (equivalent to a BEng(Hons)) in "Computer Networks and Telecommunications" specialising in "Computer Networks, Mobility, Security" (Licence Professionnelle "Réseaux et Télécoms" option "Réseaux Informatiques Mobilité Sécurité" anciennement "Réseaux sans Fil et Sécurité") began in Grenoble in September 2005 for the French-speaking class. An international class (All courses are taught in English with an introductory course in French Language, and an international recruitment) began in September 2007. This academic year (2017-2018) marks the 11th year of this international programme. The current class is composed of 12 students representing 8 countries. The students are enrolled in undergraduate studies at their home institution and have decided to come to France to do their third year.

In this class, the students deepen their knowledge and know-how in Networking and Telecommunications, and specialise themselves in Mobility (Wireless networks, mobile phone) and Security.

Project-based learning complements the more formal tuition programme. Here the students are required to develop or manage a project, in groups, in a multicultural context.

A 16-week (minimum) industrial or research placement completes the degree course. This work placement is an important aspect of the education given, taken into account in order to obtain the bachelor's degree. The evaluation of the training period is part of the assessment process; it is achieved in a partnership between the company/institution and the IUT. The students may further develop their skills in the areas of **network administration, network security, telecommunications**, during their internship in your company.

One of our students would like to achieve her/his training period in your company. We would be grateful if you could consider positively her/his application for this period.

We look forward to receiving your answer.

Yours faithfully,

A handwritten signature in black ink, appearing to read "J. Thiriet", written over a horizontal line.

To Whom It May Concern:

It is with great pleasure that I am recommending Ronaldo Drumond to you. I am a software developer at Assertis Ltd. and I have worked with Ronaldo, who held the position of software developer intern from August 22, 2016 to February 24, 2017

Ronaldo would be a great asset to your company. He is a very energetic and responsible person with a sharp analytical mind and attention to details.

I remember Ronaldo for working on both frontend and backend projects, creating quality assurance tests, conducting devops operations and preparing financial reports. He was very helpful ever since he joined the team, took active position in scrum events as well as the company's lifestyle.

I believe that Ronaldo will be an excellent fit for your company. Ronaldo has been nothing short of an exemplary intern. If you have any further questions, feel free to contact me at nikita.batalov@assertis.co.uk (+48733090242) and I'll be happy to answer any questions you have.

Sincerely,

Nick Batalov
Developer

Belo Horizonte, March 1, 2016

To whom it may concern

I highly recommend Mr. Ronaldo Cruz Drumond Júnior who worked at Intelligent Systems Laboratory during the period of August 1, 2014 to July 31, 2015, as an undergraduate research student. During this period, he has always performed his activities effectively, demonstrating high technical skills and professional competence, capability of learning easily new functions.

For his dedication, knowledge and integrity, he always had excellent relationships with his colleagues, contributing effectively and positively to achieve the objectives of our research projects.

Given the above, I am pleased to recommend Mr. Drumond Junior and I strongly believe that he will do a great job in your company.

I place myself at your disposal for any clarifications that may be needed.

Sincerely,

Henrique E. Borges, PhD
