

March 20, 2018

Dear Sir or Madam,

I am a computer networks and telecommunications student, at Grenoble Alps University's Institute of Technology. I am from a small city in Brazil but I have lived in different places and been exposed to various cultures in Brazil, Poland and France. I am willing to work in different fields of computer sciences such as software administration or software development.

In Brazil, as part of my high school education, I took a computer technician course and then decided to study computer engineering as an undergraduate student at the Minas Gerais Federal Technological Institute. At Minas Gerais, I acted as a computer programming tutor and researched computer-oriented task management. In this project, I had the opportunity to develop my research, teamwork and communication skills.

My first internship was in a telecommunication company, working in an optical fiber system, used for the operational control of the services offered by this company. I also had an opportunity to help in a volunteer social project that teaches free construction courses and does infrastructure repair in communities around Belo Horizonte and the Amazon. In this project, I collaborated in developing a web site and blog and welcoming the new students, I learned a bit of infrastructure repairs and visited a partner school in France for 3 weeks to learn about automated residential technology.

Last year, I lived in Poland, where I improved my English and learned more about software development. I worked at Assertis company, using agile methodology to create and improve rail ticket websites. After that, I returned to Brazil, where I spent one semester at my home university and also found the opportunity to do a new internship, working in an intellectual property system created by Pris company (learning C# programming language).

All these experiences were very rewarding and important to my personal and professional growth, as they enabled me to work in different places, with different kinds of businesses and a diversity of people. I believe I could fit easily into your team. I am persistent, flexible, responsible and I like to work in teams. I also have lots of ideas and enthusiasm.

Yours faithfully,

Ronaldo DRUMOND.

+ EXPERIENCES

- SYSTEM ADMINISTRATOR**
INTERN AT CNRS
Research, installation and configuration of a data center management infrastructure (DCIM), solution to manage and monitor the data center of the computer networks center at CNRS Alpes. Update the file hosting services as a second project.
Mar 2018 - Jun 2018, Grenoble, France
- SOFTWARE DEVELOPER**
INTERN AT PRIS
Collaborated in developing a system in intellectual property business, using the framework MVC ASP NET and Microsoft SQL Server.
Apr 2017 - Aug 2017, Belo Horizonte, Brazil
- SOFTWARE DEVELOPER**
INTERN AT ASSERTIS
Collaborated in developing BDD tests and improvements for the Assertis's rail tickets web-sites, using PHP language, XSL and SQL. Internship by International Association for the Exchange of Students for Technical Experience (IAESTE).
Aug 2016 - Feb 2017, Gdansk, Poland
- SOFTWARE DEVELOPER**
INTERN AT AXXIOM
Collaborated in developing improvements for the Control System Operating (SICOP) at CEMIG TELECOM, using Java Web.
Jul 2015 - Aug 2016, Belo Horizonte, Brazil
- SOFTWARE DEVELOPER**
INTERN AT PROGEST
Voluntary participation as part of the software development team, implementing the project site and helping in the creation of an academic system using WordPress and CakePHP, at PROGEST (Engineering, Society and Technology Studies Program).
Aug 2015 - Aug 2016, Belo Horizonte, Brazil
- SCIENTIFIC AND
TECHNOLOGICAL
INITIATION**
AT CEFET-MG
Conducted research on application performance scientific multithread, concurrently running processes in a cluster. Studied models of concurrently programming and used the messaging model - model Actors by Akka tool and Java programming language. Found satisfactory results to refactor applications needed to improve processing.
Feb 2014 - Jul 2015, Belo Horizonte, Brazil
- TUTOR OF PROGRAMMING
LANGUAGE** AT CEFET-MG
Tutor of Computer Programming Language, available to answer questions, reinforce theoretical and practical skills for structured programming (language C).
Sep 2013 - Jan 2014, Belo Horizonte, Brazil

TUTOR OF MATH Solving and helping students with theoretical questions regarding to the
AT CEFET-MG Analytic Geometry and Algebra Vector classes.

Jan 2012 - Aug 2013, Timóteo, Brazil

SCIENTIFIC INITIATION JUNIOR Scientific Initiation Junior high school project in network security area,
specifically on confidentiality assurance mechanisms, integrity and
authenticity in computer networks connected to the Internet.

Aug 2010 - Aug 2011, Timóteo, Brazil

+ EDUCATION

2017 - 2018 **COMPUTER NETWORKS AND TELECOMMUNICATIONS**

GRENOBLE ALPS UNIVERSITY Final year of the Professional Bachelor's Degree specializing in Computer
networks, mobility, security. Language of instruction: English.

Grenoble Academic Institute of Technology 1, France

2011 - 2017 **COMPUTER ENGINEERING BACHELOR'S DEGREE**

FEDERAL CENTER FOR Completed 4 / 5 years.

TECHNOLOGICAL
EDUCATION Brazil

2008 - 2010 **INFORMATION TECHNICIAN**

FEDERAL CENTER FOR High School Diploma specializing in information system technology.

To Whom It May Concern:

It is with great pleasure that I am recommending Ronaldo Drumond to you. I am a software developer at Assertis Ltd. and I have worked with Ronaldo, who held the position of software developer intern from August 22, 2016 to February 24, 2017

Ronaldo would be a great asset to your company. He is a very energetic and responsible person with a sharp analytical mind and attention to details.

I remember Ronaldo for working on both frontend and backend projects, creating quality assurance tests, conducting devops operations and preparing financial reports. He was very helpful ever since he joined the team, took active position in scrum events as well as the company's lifestyle.

I believe that Ronaldo will be an excellent fit for your company. Ronaldo has been nothing short of an exemplary intern. If you have any further questions, feel free to contact me at nikita.batalov@assertis.co.uk (+48733090242) and I'll be happy to answer any questions you have.

Sincerely,

Nick Batalov
Developer

Belo Horizonte, March 1, 2016

To whom it may concern

I highly recommend Mr. Ronaldo Cruz Drumond Júnior who worked at Intelligent Systems Laboratory during the period of August 1, 2014 to July 31, 2015, as an undergraduate research student. During this period, he has always performed his activities effectively, demonstrating high technical skills and professional competence, capability of learning easily new functions.

For his dedication, knowledge and integrity, he always had excellent relationships with his colleagues, contributing effectively and positively to achieve the objectives of our research projects.

Given the above, I am pleased to recommend Mr. Drumond Junior and I strongly believe that he will do a great job in your company.

I place myself at your disposal for any clarifications that may be needed.

Sincerely,

Henrique E. Borges, PhD
